

Data protection bundle (excerpt) — facebook_app_review/bundle_for_upload.md

This image shows the policy headings and contact block. Redact personal contact if you wish.

No mobile app processes Platform Data. AutoPromote is a web-only platform.

Dependency patch policy: We triage CVEs via npm audit/OSS scanning,
prioritize by CVSS, create PRs, test, and merge within remediation windows.

System patch policy: Hosts are inventoried and patched automatically via playbooks.
